

Drug Medi-Cal Organized Delivery System Waiver

DMC Organized Delivery System Waiver

- The goal is to improve the quality and availability of SUD services for California's beneficiaries.
- The waiver will give state and county officials more authority to select quality providers.
- The Waiver will be consumer-focused; use evidence based practices and improve program quality outcomes.

DMC Organized Delivery System Waiver

- The waiver will support coordination and integration across systems.
- A goal is more appropriate use of health care, such as reduced emergency rooms and hospital inpatient visits.
- The waiver will ensure access to SUD services while also increasing program oversight and integrity at the county and state level.

DMC Organized Delivery System Waiver

- DHCS held three SUD Waiver Advisory Group meetings in April 2014. Topics discussed included:
 - Continuum of Care

DMC Organized Delivery System Waiver

Next Steps:

- DHCS is working closely with CMS.
- SAMSHA wants to assist with gaps in service.
- DHCS is drafting terms and conditions.
- Stakeholder meetings will continue to obtain input on the process, terms and conditions and the evaluation.
